## BEYOND CLEAN.

**For Grocery, C-Store, QSR, and Retail Food Service Operations**

**ProBlend is a brand of sanitation solutions that goes BEYOND CLEAN ... for organizations that buy it, sanitation professionals that use it, and customers that enjoy the many benefits of cleaner, healthier environments.**

ProBlend's comprehensive sanitation and safety solutions program for retail food and grocery stores is designed to address the distinctive challenges of this market, offering expert results to keep grocery stores, big box stores, convenience stores and warehouse clubs clean, safe and healthy for customers and employees. We offer a focused professional program to meet the evolving needs of retail food service today, with customized product and service solutions that address...

- Cleaning and sanitation
- Food safety
- Floor care and safety
- Health code compliance
- Operational efficiency and cost control
- Brand and reputation management
- Sustainability

See Safer Choice program information  
on page 17.

## The ProBlend Program

### Keep it Clean

Clean, attractive surroundings are one of the first things customers notice when entering your facility, and is usually a deciding factor in repeat visits. ProBlend ensures surfaces throughout your stores are dirt and spot free, resulting in an enjoyable experience while protecting your valuable reputation.

### Keep it Safe

ProBlend takes health seriously. Our food safety program helps reduce the chances of a foodborne illness outbreak, while our floor care program protects against slips and falls. We help facilities remain compliant with all OSHA and FDA regulations.

### Keep it Running

Our experts know how to maximize results while controlling costs that impact your bottom line. ProBlend's reliable, cost effective systems and products improve efficiency, reduce labor, and keep your operation running smoothly, further safeguarding your brand and reputation.

**Shoppers say food quality and store cleanliness remain equally as important considerations as price.**

## The ProBlend Advantage

### Clean. Healthy. Safe.

ProBlend high performance cleaning and sanitizing products are professionally engineered and blended to meet the unique challenges of retail food and grocery operations. Our professionals understand the importance of keeping customers safe, surfaces sanitized and food fresh. At ProBlend, we go BEYOND CLEAN to offer solutions for every area and department of your store, including:

- Dairy, Deli, Seafood, Bakery and Meat Departments
- Food Processing/Preparation and Café areas
- Floors
- Restrooms
- Entrances/Aisles/Checkout
- Warehouse/Back of House

### Unparalleled Service.

Dependability and attention to detail are the hallmarks of every certified ProBlend service provider. Our team members deliver a superior level of service to each of your stores, and are local to your community so they understand the unique needs of each market. ProBlend members consult with your team on each visit, and routinely look for ways your stores can improve efficiency and productivity while continuing to provide a great customer experience. Our depth of experience and industry knowledge means we are able to offer innovative solutions to challenges big and small.

### Training and Support.

We know that employee education on proper procedures and product usage is critical to the health and well-being of all who come through your doors. That's why ProBlend provides process and procedural training as well as product application support for all employees. Our procedural documentation and wall charts are all designed to assist your employees in understanding the importance of using correct procedures in cleaning and sanitizing.

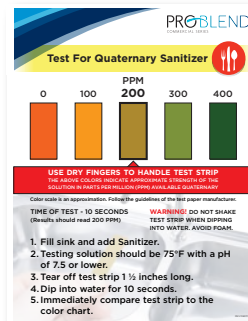

## Service Reporting.

Operational inefficiencies and opportunities are identified through ProBlend's comprehensive automated service reporting. Our reports capture data from each department and area of your facility, expertly analyzing it to give you valuable feedback. Data can be used to:

- Manage chemical inventory
- Identify areas of inefficiency
- Identify potential risks/liabilities
- Capture and attach photos to relay areas of concern
- Keep your facility clean and healthy
- Summarize key recommendations

ProBlend service reporting allows you to view reports in a format that best suits your operation's needs at both the single store and corporate level. It's just one more way we go BEYOND CLEAN to deliver results that create a healthier store experience.

## Food Safety.

Retail food spaces cannot afford to let a foodborne illness impact their reputation. ProBlend food safety experts regularly perform service audits of your food service operation, ensuring all fresh and prepared food

areas meet stringent safety requirements. Areas are evaluated on dozens of specific criteria, including:

- Employee Hygiene
- Food Preparation / Cross-Contamination Issues
- Food Storage and Transfer Protocols
- Cleaning and Sanitation Chemicals
- Waste Areas
- Sinks and Drains

Should safety audits reveal problem areas, ProBlend experts will work with employees at your operation to correct and eliminate factors that could impact staff or customer health and safety.

**14% of consumers would stop visiting a store that isn't as clean as they would like.**

## The ProBlend Advantage

### **Sustainability.**

At ProBlend, we understand the importance of being good stewards of our natural resources, both now and for future generations. Environmental responsibility is incorporated into all of our business practices, and we are committed to reducing waste as well as energy and water usage through sustainable practices and procedures. We make it a priority to stay up-to-date on the latest environmental science, incorporating new knowledge into our products and services to help create a cleaner, healthier experience and world.

ProBlend's concentrated chemicals conserve water and save energy, resulting in significant cost savings. Many of our products are Safer Choice as designated by the U.S. Environmental Protection Agency (EPA), NSF and NSFI certified.

## What is Safer Choice?

*Safer Choice was created by the U.S. EPA to identify products that contain the safest possible ingredients, perform well and are cost effective. They take into consideration the health of people and other living things as well as the health of our water, air and land. They also require data to ensure the product performs well for its intended purpose.*

For more information on Safer Choice check out: [epa.gov/saferchoice](http://epa.gov/saferchoice)
